

Forward Looking

Claudius Mundoma 09/15/2023

Just PID it!

2023 FAIR Facilities & Instruments
CU Boulder - Norlin Library Colorado

... BC (Before Claudius)...

..and now

Forming Local Communities of Practice

1. What new developments have happened in the PID community?
1. How might we work together to create additional value by integrations, or PID combinations?

David Elbert - has focused on this to great lengths

Local Nodes of Practice. Stanford PID Council

DOI: ... new developments include the Global Data Citation Corpus (<https://pidforum.org/t/building-the-open-global-data-citation-corpus/2405>)

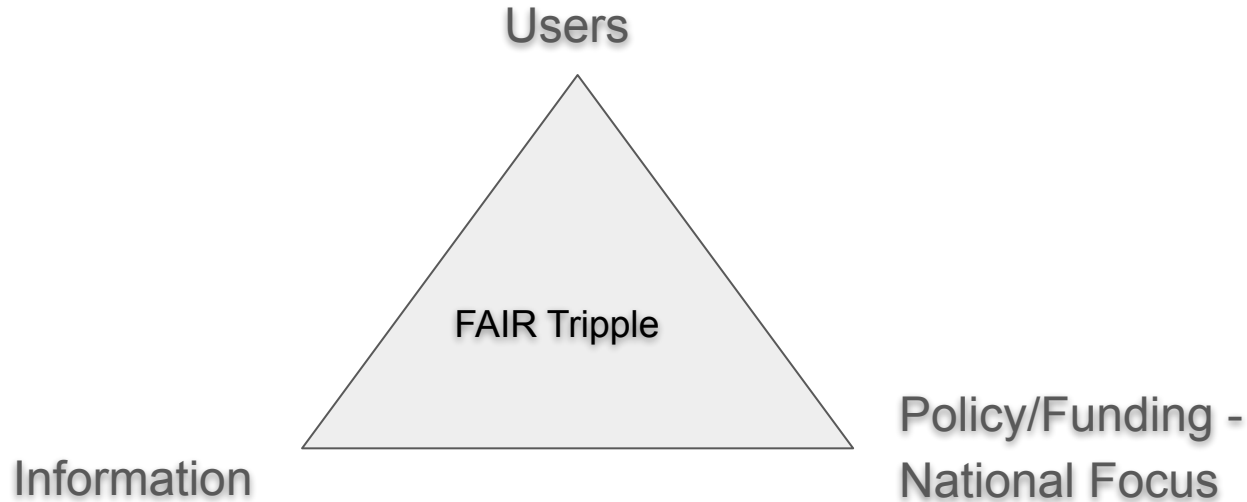

RRID:Claudius is the RRID registrar of record for Stanford.

- Reserved blocks of RRID numbers for Stanford entities. We will have an RRID for every shared facility in [C-SHARP](#)

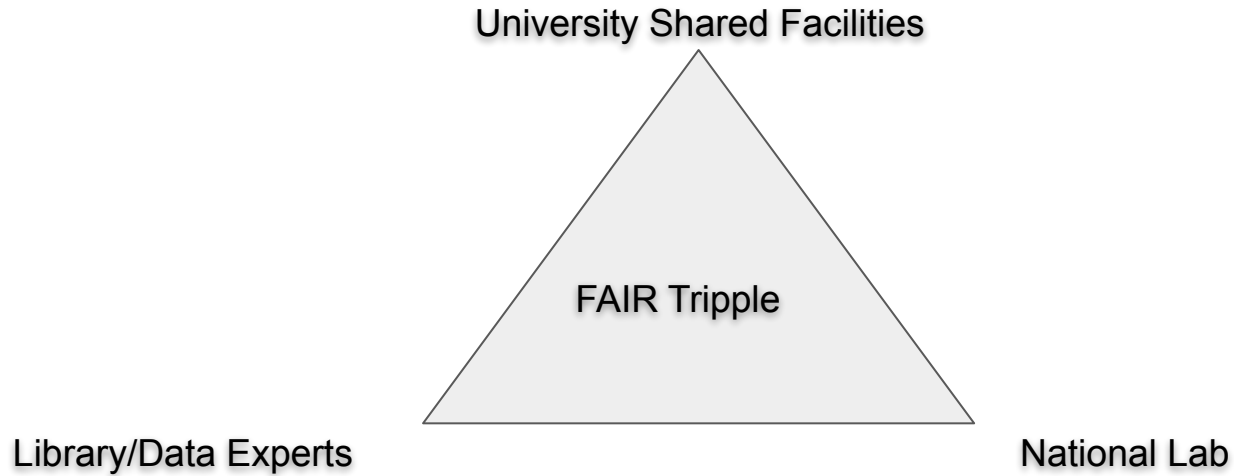

ORCID: ...Stanford ORCID Gateway - we recently passed the 1,000+ mark for faculty that have paired their ORCID and their SUNet via <https://authorize.stanford.edu>

ROR: ... we intend to provide some curation to clean up ROR records

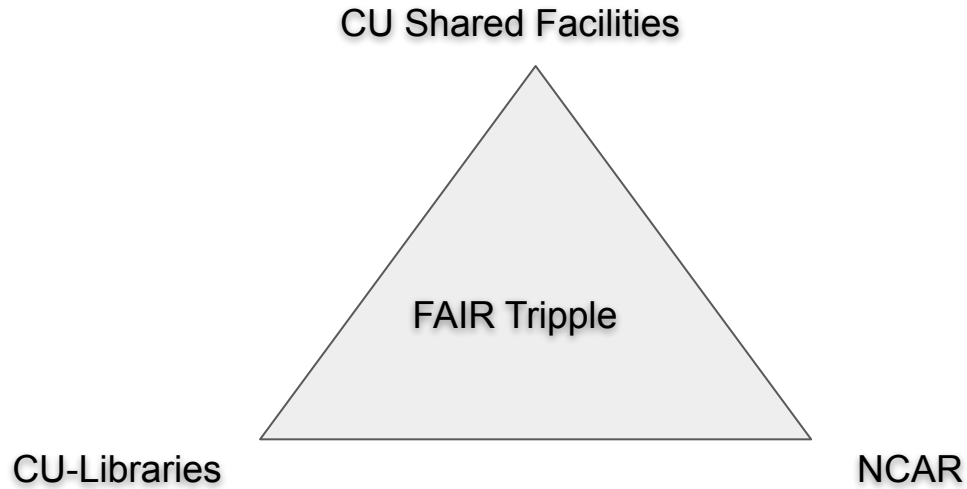

Sustainability and Stakeholder Engagement

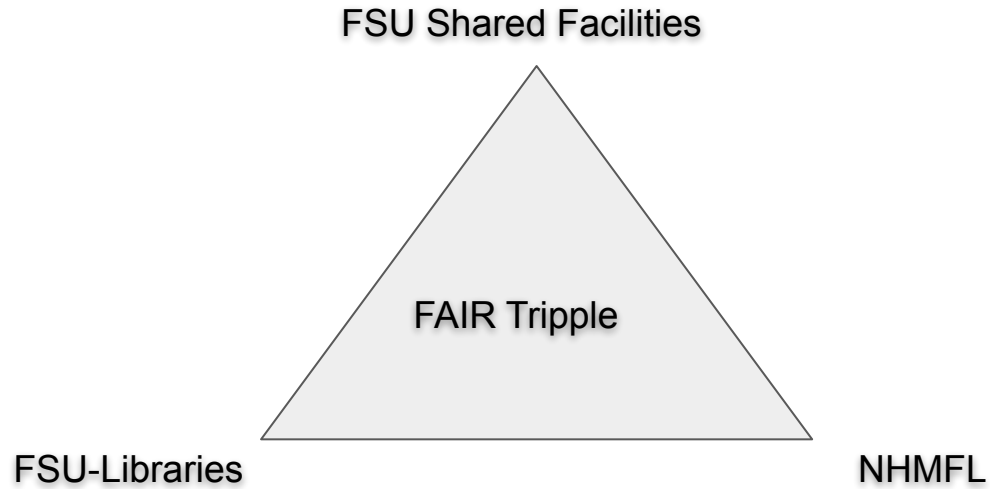

Trinity of FAIRness

Trinity of FAIRness (example)

Trinity of FAIRness (example)

Minimum Viable PID (MVPID)

Make PID implementation easier to adopt and implement

MVPID + [(n+1)doi] = new PID

Or:

MVPID + [protocols.io] = new PID

Mark Parsons just emphasized this in the just ended presentation

Looking ahead

2024 ABRF National Meeting in Minneapolis, Minnesota

- Have a session reserved for FAIR Instruments & Facilities

Monthly webinars

- Identify/establish regular webinars from different practitioners of PIDs

PID Cheat sheets

- Have readily accessible and concise “how to” documents
- Templates for information entry
 - onboarding new users
 - Registering PID

Just PID it!

2023 FAIR Facilities & Instruments
CU Boulder - Colorado

THANK YOU
